Status: Draft_____ Date Originated: 12/01/2005 By: Keith Portnoy
For Approval____ Rev. No.: _____
Final XX Referred to_____ Date_____

Date for Board Approval: 12/08/2005 Date Approved: 12/08/2005
Editing revision 6/15/06 DST
Date to be Reviewed: 2016 Date Reviewed: 12/12/12

Category(s): Engineering

Keywords: Audiovisual, Low voltage, Life safety

The design of audiovisual systems, to include conduit and junction box requirements, low voltage wiring, and equipment layout that do not involve any life safety systems is not considered the practice of engineering as defined in G.S. 89C. However, if held out as an engineering service or as being done by a PE then the work must be signed and sealed and the company must be appropriately licensed with this Board.
